

Are You Feeling Stuck? Overwhelmed? Frustrated?

Maybe You Need to Change How You Change.

So much of what stands in the way of successful, sustainable change are our perceptions and the stories we've created that keep us locked in old habits and patterns.

In his "Becoming a Better You" workshop, Dr. Peter Vajda shares his knowledge of how and why we resist change so you can understand what's holding you back. He then provides you with the tools to forward the action of your life.

You will receive valuable insights and practical exercises for personal growth at work, home and in relationship

"Your workshop opened my eyes to why I was not making successful changes in my life. Now I know how to do it right."
